Celebrating Arbor Day!

To celebrate Arbor Day and our planet, each of our four locations gave out complimentary trees on Friday, April 27 and Saturday, April 28. A total of 600 trees were distributed by Community Bank to students and customers.

Visiting members also viewed the artwork trees in our lobbies made by local elementary students, who used their handprints to create the leaves. Students were invited to our locations on Arbor Day and each received their own tree to plant.

Special guest Vonnie Maple of *The Journal-Standard* was on hand to help give out trees to students and talk to them about the importance of trees.

"At the beginning of this project, several weeks ago, I had asked Julie (Montgomery) to check with the parents and teachers to ask the students the simple question, 'Why I like trees,'" Vonnie said. "The response was outstanding! I received over 120 papers, handwritten by students from all grades."

You can read some of the students' responses and more of Vonnie's article, as well as view additional pictures, in her *Tree Tales* column at www.journalstandard.com.

Do your part to save trees and help the environment—cut down on paper waste by signing up for free e-statements from Community Bank! Learn more on page 2.

Check Your Credit Report!

Credit reports contain information about you, including what accounts you have and your bill paying history. The law requires the major nationwide consumer reporting companies—Equifax, Experian and TransUnion—to give you a free copy of your credit report each year if you ask for it.

Get your annual credit report today to avoid surprises tomorrow. Each of these three consumer credit reporting companies must provide you with this free credit report every 12 months, and it's important that you check them all for accuracy. A mistake on your credit report could result in higher interest rates, rejected loans or even lost job opportunities. Visit annualcreditreport.com or call 1-877-322-8228 for your free credit file. You can also write to: Annual Credit Report Request Services, P.O. Box 105281, Atlanta, GA 30348-5281.

How Much FDIC Coverage Do You Have?

Ever wonder how your deposits are insured? In response to consumer concerns about deposit safety, the FDIC has launched EDIE, the FDIC insurance calculator created with the help of Suze Orman. This interactive web site will help you calculate your level of FDIC coverage. Visit MyFDICInsurance.gov today.

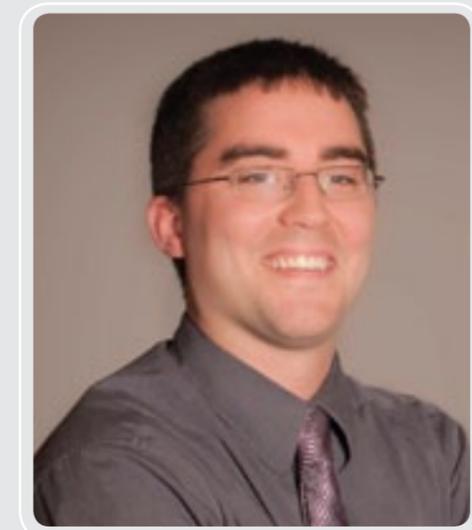

The FDIC has been protecting people's money, insuring their bank deposits and preserving their futures for 75 years. Since the program began, not a single depositor has lost a single penny of insured deposits.

For standard accounts, the FDIC insures up to \$250,000 per depositor, per institution, with possible additional coverage for trust accounts and multiple signers. For details, log on to www.FDIC.gov. We're proudly a member of FDIC, so you can feel secure about your future.
